

Baujahr 1785 und noch lange nicht am Ende

Was können wir von einem alten Rheintalhaus lernen?

juri troy architects

A close-up photograph of a vertical wooden slat wall. The wood has a warm, golden-brown hue with visible grain and some darker, charred areas. The lighting is dramatic, coming from the side, which creates strong highlights on the right edges of the slats and deep shadows on the left, giving it a textured, almost architectural appearance.
